The Castle under Siege Educational Pack

A software package on castles and dragons, designed to develop children's creative skills.

The CD-ROM is suitable for all children at primary level with basic ICT skills and basic reading and writing ability.

The CD-ROM has three main sections:

The Castle Under Siege talking book: this is ideal for whole-class teaching and the pack includes plenty of ideas for follow-up creative work.

My Story, where children can make up their own stories choosing from a large variety of backgrounds, characters and objects. The story can be up to 12 twelve pages, and can be printed out by children to produce their own story book.

The '**Clothes and Arms**' game, dressing characters in a range of colourful outfits and armour. These designs can then be printed out and used for creative work.

The Teacher's Pack includes a wide range of lesson plans and activity sheets targeted according to level and ability.

- A highly creative package which develops writing skills.
- Popular dragons and castles theme.
- Large range of characters, sounds and settings.
- Teacher's Pack includes wide range of lesson plans.

The Castle under Siege CD-ROM for both PC and Mac. PC version is XP compatible.

A Whale of a Tale Series Set One

Suitable
for Special
Needs!

A popular cross curriculum pack, containing three CD-ROMs for Key Stage 1 Maths, Science and Literacy. They all use a whale theme, with animations, and sounds which have a great appeal to children.

Leap into Language 1 uses the whale theme to encourage the development of basic language skills, including reading, writing and listening strategies and techniques.

Surf into Science 1 encourages children to ask questions about the world around them and explore the answers.

Dive into Maths 1 helps children learn the basics of maths, through tutorials, discovery, exercises and practice.

- Great graphics and animations with whales theme make it fun for children.
- Clear presentations, ideal for slower children.
- Develops early ICT confidence.
- Lots of features to keep children interested.
- Extensive Teacher's Pack.

All CD-ROMs are for both PC and Mac.
Windows network versions also available.

Microsoft Application Package

The most innovative, effective IT training materials system that's sweeping the Education and Training Markets. It saves you time, money and much more!

Each course you create consists of several parts:

- ❖ Course Workbook, for trainees to work through exercises
- ❖ Course Notes, for easy reference after training
- ❖ Course Handbook, for the trainer's reference
- ❖ Course Documents, including certificates and feedback forms.

This gives you a remarkable flexibility in use: for tutor led, self-paced group training, one-to-one and even supported flexible learning.

With the Microsoft Application Package, simply drag and drop the subject of individual topics you need, and the system does the rest – producing complete, fully editable Word files.

- ❖ Build and generate your own training courses quickly and cost-effectively.
- ❖ Tailor courses to your exact requirements.
- ❖ Select specific individual topics.
- ❖ Customise to your own style.
- ❖ Localise the materials.
- ❖ Make as many copies as you need.
- ❖ Use the system without time limit.
